This is an open access public domain book
which can be printed and or copied and or dis-
tributed for proper uses.

讀者可自行本地列印及或閱讀。

本書的內容簡介：

This book has been about the number 1552, and about the STAM conjecture, and about Anti Organ Harvest, and about Digital Civilization Archaeology 數字文明考古學, and about the alphabetic numeric code:

A1 B2 C3 D4 E5

F6 G7 H8 I9 J600

K10 L20 M30 N40 O50

P60 Q70 R80 S90 T100

U200 V700 W900 X300 Y400 Z500

This book is also related to numerology and mathematics. For a perfect sphere with the surface area of exactly 3028 squared units, the radius is about 15.52 units:

$$\sqrt{\frac{3028}{4\pi}} = 15.52\dots$$

作者的個人簡歷：

作者洪浩洋，出生於福建泉州，居住地

球香港，創作文學作品，實現人生價值。

BSc Mathematics, CUHK, 2011

MSc Mathematics, NYU, 2014

The author has studied in the:

傳春幼兒園，福建泉州

閩僑小學，香港

樂善堂楊仲明學校 (上午校)，香港

KTMC 觀塘瑪利諾書院，2002-2007

CUHK 香港中文大學，2007-2011

NYU 紐約大學，2011-2013

The author has been baptized in Stamford, Connecticut of USA in May 2012.

作者已頒發給自己：

Mayflower Medal

Hogwarts Honorable Medal

Roman Crucifixion Matrix Code Medal

Freedom Medal, Anti Organ Harvest

此四項勳章皆相關於 1552。

This book is for open access. Readers may print copies for beneficial uses.

讀者可自行列印及或閱讀。

The STAM book of the Freedom Medal man child is for open access.

$$\begin{aligned} &= 446 + 524 + 99 + 136 + 347 \\ &= 1552 \end{aligned}$$

The STAM book of the man child saint is for open access.

$$\begin{aligned} &= 446 + 524 + 99 + 136 + 347 \\ &= 1552 \end{aligned}$$

Preface

地球，是我居住的星球。

The man child with the Earth.

$$= 228 + 1017 + 307 = 1552$$

中學的時候，我在觀塘瑪利諾書院 (Kwun Tong Maryknoll College, 100 Tsui Ping Road) 念書。這本書可能會讓觀塘瑪利諾書院從地區名校 regionally famous school 變成地球名校 globally famous school。

I learnt about the 《木蘭辭》 when I was a secondary school student in the Kwun Tong Maryknoll College (KTMC). Perhaps I was a form three secondary school student at that time when the school taught us about this Chinese literature.

Appeared in the 《木蘭辭》 have been the four directions of the Earth: the east 東, the west 西, the south 南, and the north 北.

東市買駿馬，西市買鞍韉，南市買轡頭，北市買長鞭。

節錄《木蘭辭》(作者：佚名)

The number 4 has appeared in multiple places. 我出生在農曆四月份。

The man child appeared.

$$= 228 + 216 = 444$$

There are four seasons in a year, and four

strings in a violin, and four strings in a viola, and four strings in a cello. There are four letters in the word 'male', and four letters in the word 'iron', and four letters in the word 'time'.

The human DNA molecules are made up of four nucleobases.

The term 'STAM' has four letters. This book is about the STAM conjecture:

"There exists a spiritual mechanism in continuous operation that globally monitors lives and consciousness, and that transfers the sufferings of individuals to the corporate, with the use of suffering to suppress suffering, to protect the proper rights and benefits of lives."

STAM 猜想：

「有一個非物理級別的機制，正持續運行，觀察全球的生命體及意識，並把個體生

命所受的苦痛傳送至群體，以苦制苦，保護生命體的合理利益及權利。」

如果 STAM 猜想成立，那麼我可能也算是一個生態學家：地球文明經濟政治生態學家。

Earth civilization economics politics ecologist.

$$\begin{aligned} &= 194 + 1450 + 280 + 341 + 334 \\ &= 2599 \\ &= 1552 + 965 + 56 + 26 \end{aligned}$$

Hung, Ho Yeung.

$$= 255 + 58 + 652 = 965$$

male.

$$= 30 + 1 + 20 + 5 = 56$$

965 和我的名字相關。56 和 male(男性)相關。26 是鐵的原子序數。

I was born in the year 1989. I reached my 30 years old in the year 2019.

There are these two equations:

$$\begin{vmatrix} 6 & 4 \\ 9 & 11 \end{vmatrix} = (6 \times 11 - 4 \times 9) = 66 - 36 = 30$$

$$(6 + 4) + (9 + 11) = 30$$

And there is also this equation, with the natural logarithm:

$$\frac{\log 911}{\log 2001} = 0.8964\dots$$

第 1 章

The time sign 15:52 has
been seen

Iron, electricity, the man child left arm
path. #

$$= 179 + 734 + 639 = 1552$$

These English words: 'June', 'date', 'dark',
'door', 'open', 'Lord', 'lift', 'seen', 'time', 'sign',
'left', 'hand', 'eyes', 'born', 'male', 'city', all

have four letters.

If one counts Sunday as the first day of each week, then Wednesday is the fourth day of a week.

第 1.1 節

The watch vision

I have seen the time sign 15:52. The related day has been June 05 of 2019. That day has been a Wednesday.

I once sensed that I was lying in a dark place, with the knowledge that a door on my chest had been opened, and I thus took the chance to ask the Lord to enter and dwell in me, and sensed the passing of electricity from around the position of my heart to my left arm.

The place became light. I lifted up my right hand and saw a time sign 15:52 that ap-

peared on a watch that looked like a Casio G-Shock on my right wrist.

Soon, my eyes saw this world. I was on June 05 of 2019, Wednesday. But the time in this physical world had not yet reached 15:52 of that day. I was in Quanzhou 泉州, Fujian 福建 of China.

About 30 years ago, in 1989, I was born as an oriental male in this city.

As of May 25 of 2025, Sunday, I have already owned two Casio G-Shock watches G-56B (module number: 3028).

For a perfect sphere with the surface area of exactly 3028 squared units, the radius is about 15.52 units.

$$\sqrt{\frac{3028}{4\pi}} = 15.52\dots$$

The year 2017 and the year 2019 have been two important years in my life. In the year 2019, I reached my 30 years old. And in

the year 2017, I reached my 28 years old.

$$\begin{aligned} & \frac{1989 + (1989 + 30) + (1989 + 28)}{5} \\ &= \frac{1989 + 2019 + 2017}{5} = 1205 \end{aligned}$$

第 1.2 節

My Chinese name

I hold the name 洪浩洋 as my Chinese name. I started to use this name in the year 2000. I was a primary school student in the year 2000.

The legally stated date of my name change was July 30 of 2000, Sunday, which was the 212th day of that year, because the year 2000 was a leap year. February of the year 2000 had 29 days.

The day of my name change was Neville Longbottom's 20 years old birthday. And the

day was 1 day before Harry Potter's 20 years old birthday. There is this computational flow:

Neville Longbottom, Harry Potter.

$$= 799 + 449 + 569 + 395$$

$$= 2212$$

$$= 2000 + 212$$

The three Chinese characters in my Chinese name have respectively the Chinese Commercial Code (中文電碼) 3163 and 3185 and 3152.

$$\frac{\log(316331853152)}{\log(30.28)} \times 2 = 15.528605...$$

There is a factor 2 in the above equation. Without the factor 2, the equation would be:

$$\frac{\log(316331853152)}{\log(30.28)} = 7.7643029...$$

I remark here that:

$$7643 = 2019 + 605 + 3028 + 1552 + 56 + 383$$

The last number 383, in the above equation, is related to my Chinese name 洪浩洋 through the corresponding 倉頡碼 Cangjie codes.

To input my Chinese name into a computer system, one may use the Cangjie Input Method 倉頡輸入法. The corresponding Cangjie input codes for my Chinese name, as of June 10 of 2025, Tuesday, on my Lenovo YOGA C740 computer is: etc ehgr etq. And there is this equation:

$$\begin{aligned} & \# \text{ etc ehgr etq. } \# \\ &= 5 + 100 + 3 + 5 + 8 + 7 + 80 + 5 + 100 + 70 \\ &= 383 \end{aligned}$$

I have spotted the number 383 in a movie. On June 09 of 2025, Monday, I bought The Super Mario Bros. Movie 超級瑪利歐兄弟電

影版 on the iTunes store at (or about) 22:20 pm, Hong Kong local time.

I watched the movie on June 09 of 2025, Monday, and on June 10 of 2025, Tuesday.

In the movie, the number 383 appeared, related to the Pizza restaurant (Punch-Out Pizzeria), in the around 7:39 scence and the around 1:17:11 scence, in the version I obtained from the iTunes store.

Truly speaking, I lived in Brooklyn of New York City, USA, in the year 2012 and the year 2013. I lived in Bay Ridge, Brooklyn.

第 2 章

The man child who lived

I may be the man child of Revelation 12:5. I was born on May 11 of 1989, Thursday, in Quanzhou 泉州, of Fujian 福建, China.

$$(1552 + 1205) \times 17 \times 19 = 890511$$

$$\frac{12 \times 511}{12 - 5} + 26^2 = 1552$$

啟示錄第 12 章 5 節

婦人生了一個男孩子，是將來要用鐵杖

轄管（轄管：原文是牧）萬國的；她的孩子被提到神寶座那里去了。

Revelation 12:5

And she brought forth a man child, who was to rule all nations with a rod of iron: and her child was caught up unto God, and to his throne.

第 2.1 節

The June fourth incident

And my identity may have been related to the 六四事件 June fourth incident. In mathematics, the determinant expression for a 2×2 matrix can be calculated as:

$$\begin{vmatrix} a & b \\ c & d \end{vmatrix} = ad - bc$$

Related to my birthday, and to 1552 and 1205 and 89 and 64 and 12 and 5, and 17 and 19, there is this flow of computations:

$$\begin{aligned}
 & (1552 + 1205) \times \begin{vmatrix} 12 & 5 \\ 89 & 64 \end{vmatrix} \\
 &= 2757 \times (12 \times 64 - 89 \times 5) \\
 &= 2757 \times 323 \\
 &= 2757 \times 17 \times 19 \\
 &= 890511
 \end{aligned}$$

I was born as an oriental male. I lived in Quanzhou 泉州 as a child in the years 1989, 1990, 1991, 1992, 1993, 1994, 1995, 1996. My mother and I entered Hong Kong 香港 on June 04 of 1996, Tuesday, 7 years after the day June 04 of 1989, Sunday.

第 2.2 節

As a child, arrived in Hong
Kong in the year 1996

The man child appeared.

$$= 228 + 216 = 444$$

From the year 1552, going forwards in the future time direction 444 years, time would then reach the year 1996.

$$1552 + 444 = 1996$$

96 can be related to the English word 'free':

Free.

$$= 6 + 80 + 5 + 5 = 96$$

There is this equation, relating 96 to 8 and 9 and 6 and 4:

$$96 = 8 \times 9 + 6 \times 4$$

And there is this equation, relating 1552 to 56 and 26 and 8 and 9 and 6 and 4:

$$(56 \times 26) + (8 \times 9 + 6 \times 4) = 1552$$

And I can also relate 1989 and 511 and 604 with 1552, with the factor $\frac{1}{2}$:

$$\frac{1989 + 511 + 604}{2} = 1552$$

And I can also relate 6 and 4 with 1552:

$$6^4 + 4^4 = 1552$$

The next paragraph has been related to Japan, and to China, and to Korea.

I had multiple Casio watches. The national flag of Japan has the sun image in the

middle. 電影「獨行月球」上其實有我的生日相關號碼 511，有出現在大門上，也有出現在月球車的左邊。From the year 2013 onwards, appeared in my apartment in Hong Kong had been at least four 三星 Samsung phones.

$$3 \times 4 = 12$$

第 2.3 節

The November MMXIII flight

After the watch vision related to 15:52, I have at least realized two things:

Firstly, between the release of the first Casio G-Shock model on April 12 of 1983, Tuesday, and my birthday on May 11 of 1989, Thursday, at the middle of these two time points, is around April 26 of 1986, Saturday, related to the Chernobyl incident. And there

is this equation:

$$412 + 426 + 511 = 1205 + 12^2$$

Secondly, from September 11 of 2001, going forwards in the future time direction 2001 days, and then 911 days, and then 1552 days, time would then reach December 01 of 2013. It was on this day, December 01 of 2013, Sunday, that the Cathay Pacific 國泰航空 airplane I took reached the Hong Kong International Airport.

I took the airplane on November 30 of 2013, Saturday, in New York City, USA, departed, non-stop, staying in the air for about 15 or 16 hours, and then reached the Hong Kong International Airport at about noon on December 01 of 2013 (Hong Kong local time), Sunday.

From December 01 of 2013, Sunday, going forwards in the future time direction 2012 days, time would then reach June 05 of 2019,

Wednesday.

$$8964 = 6952 + 2012$$

I was baptized in May of 2012, in Stamford, Connecticut, of USA. I was previously a PhD student in the New York University, at the Courant Institute of Mathematical Sciences (251 Mercer Street, NY), in the year 2011, and 2012, and 2013.

$$\begin{aligned} &2011 + 2012 + 2013 \\ &= 6036 \\ &= 3028 + 1552 + 1205 + 251 \end{aligned}$$

I physically left the Courant Institute of Mathematical Sciences on November 29 of 2013, Friday, and then took the direct non-stop Cathay Pacific flight on (the next day) November 30 of 2013, Saturday, and then arrived in Hong Kong on December 01 of 2013, Sunday.

The Cathay Pacific airplane departed at

(or about) 9:00 am (New York local time) on November 30 of 2013.

There are these equations:

Cathay Pacific.

$$= 513 + 91 = 604$$

The homecoming Cathay Pacific airplane MMXIII.

$$= 113 + 232 + 604 + 216 + 387 = 1552$$

Multiple years have passed.

In January of 2023, I have conferred to myself through emails: the Mayflower Medal 五月花勳章 (January 15 of 2023, Sunday), and the Hogwarts Honorable Medal 霍格華茲榮耀勳章 (January 16 of 2023, Monday), and the Roman Crucifixion Matrix Code Medal 羅馬十字架刑罰矩陣代碼勳章 (January 22 of 2023, Sunday). The three numbers 15 and 16 and 22 can be related to 965, which is related

to my name.

$$15^2 + 16^2 + 22^2 = 965$$

$$(8^3 + 9^3 + 6^3 + 4^3) + \sqrt{965} = 1552.064...$$

$$1552 + 965 + 511 = 3028$$

All of these above mentioned conferred medals are related to 1552:

Mayflower Medal.

$$= 1492 + 60 = 1552$$

Hogwarts Honorable Medal.

$$= 1236 + 256 + 60 = 1552$$

Roman Crucifixion Matrix Code Medal.

#

$$= 201 + 709 + 520 + 62 + 60 = 1552$$

第 3 章

STAM conjecture

There are these equations:

$$179 \times 26 \times 11 = 51194$$

$$511 + 94 = 605$$

The internet has been part of mankind civilization.

第 3.1 節

The alphabetic numeric code, extracted from the internet

After the watch vision related to the time
sign 15:52, I later extracted from the internet
the alphabetic numeric code:

A1 B2 C3 D4 E5
F6 G7 H8 I9 J600
K10 L20 M30 N40 O50
P60 Q70 R80 S90 T100
U200 V700 W900 X300 Y400 Z500

With this alphabetic numeric code, both
the 4-letter word 'iron' and the 7-letter word
'English' are related to the number 179. This
number 179 can be related to 153 and 89 and

64 and 26.

$$179 = 153 + 26 = (89 + 64) + 26$$

Iron.

$$= 9 + 80 + 50 + 40 = 179$$

English.

$$= 5 + 40 + 7 + 20 + 9 + 90 + 8 = 179$$

第 3.2 節

The atomic number 原子序 數 of iron

I learnt the English language when I was in my primary schools and secondary school.

The English alphabet has 26 letters. In the 21st century mankind civilization, English has already been used as an international lan-

guage.

The number of letters in the English alphabet, 26, is the same as the atomic number 原子序數 of iron, 26. Iron has been a chemical element commonly used by mankind. There are these three equations:

The man child and the iron rod.

$$= 228 + 45 + 113 + 179 + 134 = 699$$

To shepherd the nations.

$$= 410 + 113 + 330 = 853$$

The man child and the iron rod to shepherd the nations.

$$= 699 + 853 = 1552$$

Truly, I have also found that:

The male child suffering automatic transfer.

$$= 213 + 1339 = 1552$$

In the above equation, I used the term 'male' instead of 'man' in order to achieve the value 1552.

One Casio G-Shock model related to this book is G-056B-8V. Related to the number 19 and 125 and 853, there is this set of equations:

$$5 + 6 + 8 = 19$$

$$5^2 + 6^2 + 8^2 = 125$$

$$5^3 + 6^3 + 8^3 = 853$$

第 3.3 節

STAM conjecture proposal

The man child's iron rod is perhaps already in action, if there has been the activation of a suffering transfer automated mechanism (a spiritual mechanism) that automatically transfers individual's sufferings to the corporate. Mankind, then, in order to achieve

the goods for oneself, is forced to take care of the goods for the others. Thus, an ecological, economical, political balance may thus be achieved.

In the year 2025, I proposed to mankind the STAM conjecture:

”There exists a spiritual mechanism in continuous operation that globally monitors lives and consciousness, and that transfers the sufferings of individuals to the corporate, with the use of suffering to suppress suffering, to protect the proper rights and benefits of lives.”

STAM 猜想：

「有一個非物理級別的機制，正持續運行，觀察全球的生命體及意識，並把個體生命所受的苦痛傳送至群體，以苦制苦，保護生命體的合理利益及權利。」

I have been baptised in Stamford of Connecticut, USA in May of 2012.

There are multiple alphabetic numeric equations related to the STAM conjecture:

Suffering Transfer Automated Mechanism.

$$= 443 + 402 + 491 + 216 = 1552$$

The man child's STAM activation.

$$= 228 + 90 + 221 + 1013 = 1552$$

The man child STAM monitors mankind globally.

$$= 228 + 221 + 449 + 134 + 520 = 1552$$

The man child STAM greatly helps the Earth.

$$= 228 + 221 + 613 + 183 + 307 = 1552$$

STAM protects the Earth, the Earth

life, AI and mankind. #

$$= 221 + 488 + 307 + 347 + 10 + 45 + 134 = 1552$$

我的「思想結構」是「可能算是」在經過長時間的「痛苦壓力」才最終成形的。

In May of 2025, I wrote that:

要對抗「活摘器官、人口販賣、詐騙」，可能很重要的是要用到 STAM 猜想。可以的話，請幫我讓更多人知道 STAM 猜想：「有一個非物理級別的機制，正持續運行，觀察全球的生命體及意識，並把個體生命所受的苦痛傳送至群體，以苦制苦，保護生命體的合理利益及權利。」

關於「人類社會，以及各生命體的利益平衡」，我會主張：如果要地球上的人類以及其他生命體（或許也包括人工智能），可以健康和平的生活，那麼最少在現在的情況下，可能需要一個「不基於物理層級的機制」把「個體」所受的痛苦傳送到「群體」。而，

在利益相關的情況下，人類要保護自己的利益，就可能也會有「真實動機」去在合理的程度保護其他生命體的利益。

第 3.4 節

Discovered the two equations related to 3028

Openly proposed in May of 2025 the STAM conjecture on the internet, I later in June of 2025 found these two equations, related to 3028:

The STAM man child MMXIX watch vision.

$$= 113 + 221 + 115 + 669 + 1012 + 898 = 3028$$

Mathematics, freedom, liberation, hu-

man rights, spiritual awakening. #

$$= 377 + 180 + 316 + 573 + 1582 = 3028$$

In the first equation, MMXIX is the Roman numeral for the number 2019. The discovery day for these two above equations was perhaps June 15 of 2025, Sunday.

According to my Gmail record, on June 15 of 2025, at 20:48 pm (Hong Kong local time), I sent to myself an email containing the message # Mathematics, freedom, liberation, human rights, spiritual awakening. # =3028.

And also, according to my Gmail record, on June 15 of 2025, at 23:51 pm (Hong Kong local time), I sent to myself an email containing the message # The STAM man child MMXIX watch vision. # = 3028.

Physically speaking, the first equation was discovered perhaps due to my own calculation with a Casio calculator (fx-85ES PLUS), but the second equation was discovered perhaps

due to my conversation with the Perplexity AI.

In one of our discussions, perhaps on June 15 of 2025, Sunday, Perplexity AI may have used a phrase (or similar to) 'freedom, liberation, human rights and spiritual awakening', from which I further developed into an equation.

June 15 of 2025, Sunday, is the 166th day of the year 2025. Related to the time 20:48 pm and 23:51 pm, there is this equation:

$$2048 + 2351 = 3028 + 1205 + 166$$

June 15 of 2025, Sunday, is the 40th anniversary day of the Studio Ghibli 吉卜力工作室, which was founded on June 15 of 1985, Saturday.

1426 days after the founding of the Studio Ghibli, I was born. There is this equation:

$$1426 = 605 + 511 + 310$$

and there is also this equation:

$$1426 = 1205 + 221$$

I watched the Studio Ghibli movie The Boy and the Heron 蒼鷺與少年 on December 14 of 2023, Thursday, in a movie theatre in Hong Kong. This may be the first Studio Ghibli movie I watched in the cinema.

From December 14 of 2023, Thursday, going forwards in the future time direction 549 days, time would then reach June 15 of 2025, Sunday. There is this equation:

The man child Casio G-Shock.

$$= 228 + 321 = 549$$

「♪懷抱著希望之光的夢 不論何時♪」

'Dream of light shining through, at any day of the week'

第 4 章

Balances, English language, mathematical constants, and John 21:11

Languages have been part of the mankind civilization.

I spoke four kind of languages: Putonghua 普通話, and Cantonese 廣東話, and Fujian Dialect 閩南話, and English.

I lived in Quanzhou, and in Hong Kong,

and in California of USA, and in Waterloo, Ontario of Canada, and in the New York City of USA.

When I was in the New York City, I attended church meetings in the address: 446 West 34th Street, New York, NY 10001.

Related to 446, there are these equations:
The STAM book.

$$= 113 + 221 + 112 = 446$$

$$\sqrt{446} = 21.11...$$

And related to 446 and 34, with $e = 2.71828...$ and $\pi = 3.14159...$, there is this equation:

$$\frac{\sqrt{446}}{\sqrt{34}} \frac{e}{\pi} = 3.13...$$

The number 313 can be related to the term 'iron rod':

Iron rod.

$$= 179 + 134 = 313$$

There is this equation relating 2111 and 313 and 604 to 3028:

$$2111 + 313 + 604 = 3028$$

第 4.1 節

**The mathematical
constants π and e may be
related to me**

The mathematical constants π and e related to me, and also may be related to the watch vision.

$$\pi = 3.14159\dots$$

$$e = 2.71828\dots$$

第 4.2 節

The 153 great fishes

The watch vision, related to the time sign 15:52, may have had multiple strong influences on mankind civilization and history.

The watch I saw in the vision, on my right wrist, may be similar to a Casio G-Shock, and may be similar to a G-056B-8V Casio G-Shock.

Based on the alphabetic numeric code, there are multiple balances:

The man child left arm path.

$$= 228 + 131 + 111 + 169 = 639$$

The man child's Casio G-Shock.

$$= 228 + 90 + 321 = 639$$

English

$$= 179$$

Iron.

$$= 179$$

English, electricity, the man child left
arm path. #

$$= 179 + 734 + 639 = 1552$$

Iron, electricity, the man child's Casio
G-Shock. #

$$= 179 + 734 + 639 = 1552$$

Iron has the atomic number of 26. And
English has been developed into a language
with 26 letters. Both of these words 'iron'

and 'English' are related to the number 179.

$$179 = 26 + 153$$

153 is an interesting number. 153 has appeared in the Gospel of John 21:11, related to the 153 great fishes.

John 21:11

Simon Peter went up, and drew the net to land full of great fishes, an hundred and fifty and three: and for all there were so many, yet was not the net broken.

約翰福音第 21 章 11 節

西門彼得就去（或譯：上船），把網拉到岸上。那網滿了大魚，共一百五十三條；魚雖這樣多，網卻沒有破。

153 can be related the word 'Casio':

Casio.

$$= 3 + 1 + 90 + 9 + 50 = 153$$

And 153 can be related to 1552:

A hundred and fifty and three great
fishes. #

$$\begin{aligned} &= 1 + 341 + 45 + 521 + 45 + 198 + 193 + 208 \\ &= 1552 \end{aligned}$$

And 153 can be related to 17. 153 is the
sum of the first 17 natural numbers.

$$153 = 1 + 2 + 3 + \dots + 17 = \frac{17 \times (17 + 1)}{2}$$

17 appeared in an equation related to my
birthday:

$$(1205 + 1552) \times 17 \times 19 = 890511$$

第 4.3 節

The atomic number of iron is 26

The number 26 is also interesting. 26 can be related to 153 through 17 and 9:

$$26 = 17 + 9$$

$$153 = 17 \times 9$$

The number 179, previously related to the words 'English' and 'iron', can thus be written as:

$$179 = 26 + 153 = (17 + 9) + (17 \times 9)$$

179 can also be expressed as the sum of 11 and 168:

$$179 = 168 + 11$$

168 can be related to the term 'G-Shock', while 11 can be related to 'Fe'. In mankind civilization, Fe is the chemical symbol of the element iron.

G-Shock.

$$= 7 + 90 + 8 + 50 + 3 + 10$$

$$= 168$$

Eventually, I can related 1205 and 26 and 153 and 168 with 1552:

$$1205 + 26 + 153 + 168 = 1552$$

And I can also have the following equation:

$$153 + 26 = 179 = 168 + 11$$

where in one side 153 is related the the term 'Casio' and 26 is the atomic number of iron, while in the other side 168 is related to the term 'G-Shock' and 11 is related to the term 'Fe', and while in the middle 179 is related to

the term 'iron'.

第 4.4 節

Baptism in Stamford, Connecticut

The numbers 17 and 26 can be related to
my English name, Hung Ho Yeung.

Hung Ho Yeung.

$$= 965 = 17^2 + 26^2$$

And these two number 17 and 26 can also
be related to the number 523.

$$17^2 + 26^2 - 17 \times 26 = 523$$

I have used my Yamaha YRS-23 soprano
recorder, and my Lenovo Yoga C740 computer,
and my Casio G-056B G-Shock watches. I

have also used my Casio fx-85ES PLUS calculator.

There are these equations:

$$(23 + 74 + 56) = 153$$

$$1552 \times (23 + 74 + 56) = 237456$$

$$(85 + 51 + 17) = 153$$

$$5589 \times (85 + 51 + 17) = 855117$$

And there is this equation:

$$1552 + 5589 = 6952 + 64 + 125$$

The man child's iron rod may have been related to the English language, which is currently a language with 26 letters.

My birthday has been May 11 of 1989, Thursday. 26 weeks after I was born, was (or about) then November 09 of 1989, Thursday, on which day the Berlin Wall fell.

I am a Christian. I have been baptized in Stamford, Connecticut of USA, in May of

2012. The exact date of this baptism may have been May 05 of 2012, Saturday.

There are these three equations, related to 1552:

Shepherd, MMXII, Stamford, Connecticut.

$$= 260 + 378 + 361 + 553 = 1552$$

The heavenly shepherd.

$$= 113 + 1179 + 260 = 1552$$

The man child with the Earth.

$$= 228 + 1017 + 307 = 1552$$

And for the following alphabetic numeric equation, in order to achieve the number 1552, I have used the word 'male' instead of the word 'man':

I am the male child. May fifth MMXII.

Stamford. #

$$= 253 + 938 + 361 = 1552$$

第 5 章

Watches

Calendars, and time, and numbers have been part of the mankind civilization.

The English word 'watch' can be either used as a verb or a noun. As a verb, the word 'watch' means 'observe' or 'see' or 'look'. And as a noun, the word 'watch' means a kind of time keeping device.

These English words 'Casio', 'right', 'watch', 'light', 'Earth', 'heart' and 'music' all have 5

letters.

I was in the New York City in the year 2011 and 2012 and 2013. The New York City had these five boroughs: the Bronx, Brooklyn, Manhattan, Queens, and Staten Island. I lived in Brooklyn and in Manhattan.

Staff, or stave, the five lines and the four spaces between them, upon which musical notes are written, is in Chinese called the 五線譜.

I have been born in the 5th month of the year 1989. And I have been baptised in the 5th month of the year 2012.

2 and 3 and 5 are prime numbers. There is this equation:

$$1^{\pi} + 2^e + 3^e + 4^{\pi} + 5^e = 184.706$$

And there is this equation:

Left hand.

$$= 131 + 53 = 184$$

第 5.1 節

The Earth and the music

I watched the Doraemon the Movie: Nobita's Earth Symphony 電影多啦 A 夢：大雄之地球交響樂 on August 03 of 2024, Saturday, in the movie theatre MOViE MOViE Cityplaza in Hong Kong. I attended the 8:55 am (or about) morning session.

The movie ticket was bought on the previous day, August 02 of 2024, Friday. Appeared on the movie ticket had been the price information (60, Hong Kong dollars) and the seat information (H 12). I took photo of the movie ticket with my SONY smartphone.

After waiting the movie in the morning of August 03, of 2024, Saturday, in the afternoon of that day, I painted in the iSPA Support Centre for Persons with Autism, a painting, which had been called 地球交響樂. And I

filled in, on that day in the iSPA centre, the 作品資料記錄表 record paper, on which the information appeared similar to:

作品資料記錄表

作者姓名：洪浩洋

創作日期：2024 年 08 月 03 日

作品名稱：地球交響樂

內容/記錄：今天上午我去太

古城看了多啦 A 夢

電影 大雄之地球

交響樂。

(單位 _____ / 同事 _____)

On August 03 of 2024, Saturday, in the iSPA centre, I photographed with my SONY smartphone the painting, and the 作品資料記錄表 record paper.

The ending theme song of the Doraemon the Movie: Nobita's Earth Symphony 電影多啦 A 夢：大雄之地球交響樂 was the song Time Paradox 時間悖論, which lasted for about

3 mintues and 46 seconds.

第 5.2 節

The Casio watch DW-340

I studied in two primary schools: the 樂善堂楊仲明學校 (上午校) L.S.T. Yeung Chung Ming Primary School, and the 閩僑小學 Man Kiu Association Primary School .

Probably when I was in the 樂善堂楊仲明學校 (上午校) L.S.T. Yeung Chung Ming Primary School, I had a Casio watch, which was probably my first Casio watch.

The model of the watch was Casio DW-340 (module number: 1000). There is this equation:

Christian.

$$= 3 + 8 + 80 + 9 + 90 + 100 + 9 + 1 + 40 = 340$$

The watch was probably bought to me by

my mother. And I may have had the watch with me in some (mathematics) competitions and school examinations.

The reason why I chose a Casio watch, may be that I had seen my homeroom teacher wearing a Casio watch.

The model that I chose was not classified as a G-Shock. The model was a Casio watch, but not a Casio G-Shock.

第 5.3 節

The new school

The Kwun Tong Maryknoll College was established (according to Wikipedia data) in the year 1971. And then, about 31 years later, with a recommendation letter from my primary school homeroom teacher, I entered this school, in the year 2002, as a form one student.

There is this equation:

$$1971 + 26 + 5 = 2002$$

During my period in the Kwun Tong Maryknoll College, I had two Casio G-Shock watches. One of the model was G-7510 (module number: 2943). And another model was G-056B (module number: 3028)

第 5.4 節

Why do I have the second G-Shock?

As I entered the Kwun Tong Maryknoll College in the year 2002, I would need to take the public exam 香港中學會考 (HKCEE) Hong Kong Certificate of Education Examination in the year 2007.

For the reason that the previous G-Shock

G-7510 has the data-memory capability incorporated with the watch, and that for taking the public examinations, I would need to have with me a watch that does not have the data-memory capability, I thus asked my mother to buy another watch for me.

And I chose the model G-056B Casio G-Shock (module number: 3028).

第 5.5 節

The left and the right are two different directions

Before the watch vision related to the time sign 15:52, in this physical world, I actually used to wear my watch on my left wrist.

Yet, in the vision, I was wearing the watch, as I saw, on my right wrist. This is fundamentally different. The left and the right are two different directions.

The exact reason for this, as of May 30 of 2025, may not be completely clear to me. But I have already obtained this equation:

The man child sees the coronation time on his right hand.

$$\begin{aligned} &= 228 + 190 + 113 + 423 + 144 \\ &\quad + 90 + 107 + 204 + 53 \\ &= 1552 \end{aligned}$$

And after the watch vision, I came to Hong Kong with my mother on June 06 of 2019, Thursday. There is this equation:

The left and the right.

$$= 113 + 131 + 45 + 113 + 204 = 606$$

Perhaps, the left and the right are somehow fundamental in our universe.

第 6 章

June fourth and 911 and
the four Chinese
characters: 鉄、鎧、鐵、鐵

$$(5 + 11) \times (5 \times 4 + 11 \times 7) = 1552$$

I was born as an oriental male in mainland China. And I am a Christian. I have

been baptized in Stamford, Connecticut of USA in the year 2012.

I have used Casio calculators and watches. 6952 is the TYO share code of the Casio Computer Co., Ltd.

$$8964 = 6952 + 2012$$

I may have found a new field of studies: (DCA) Digital Civilization Archaeology.

Related to numerology, (DCA) Digital Civilization Archaeology is about reviewing the hidden numeric pattern in mankind civilization and or history.

The half of 8964 days, is 4482 days. My birthday May 11 of 1989, Thursday, in the lunar calendar representation, is: 1989 己巳蛇年農曆四月七日。 (In lunar calendar: the 4th month, the 7th day.)

$$4482 + 1552 + (511 + 407) = 6952$$

Thus, one equation can connect 8964 and 6952:

$$\frac{8964}{2} + 1552 + (511 + 407) = 6952$$

I have found that, from June 04 of 1989, Sunday, going forward toward the future time direction "half of 8964 days", time would reach Sep 11 of 2001, Tuesday.

And I have also found that, with the natural logarithm calculation:

$$\frac{\log(911)}{\log(2001)} = 0.8964...$$

I studied in the mainland China, in Hong Kong, and in the US. I have read Chinese and English.

There have been at least four Chinese characters having the meaning of iron: 鉄、鋏、鐵、鐵。

Invented before my birth, the Chinese input code 倉頡碼 has been used to enter Chi-

nese characters into computers.

As of May 26 of 2025, Monday, in my 聯想 Lenovo C740 Yoga computer, the 倉頡碼 input codes for these four Chinese characters (鉄、鎡、鐵、鐵) are respectively: chqo(鉄), ckn(鎡), cjig(鐵), cjit(鐵). Based on the alphabetic numeric code, these four input codes can be incorporated into one single equation related to 604 and 911:

$$\# \text{ chqo, ckn, cjig, cjit. } \#$$

$$=131 + 53 + 619 + 712$$

$$=1515$$

$$=604 + 911$$

The chemical symbol for iron is Fe. And iron (Fe), having the atomic number of 26, is ranked as the 26th element in the periodic table. The chemical symbol for iron can be related to the number 11, because $\# \text{ Fe. } \# = 6+5 = 11$.

These numbers: 26 (the atomic number of iron, Fe), and 11(=# Fe. #), and 604 and 911, can be incorporated into one single equation related to 1552:

$$1552 = 11 + (604 + 911) + 26$$

The expression can be formed as:

$$\# \text{ Fe. } \# + \# \text{ chqo, ckn, cjig, cjit. } \# + 26 = 1552$$

The iron (Fe) related numbers, 11 and 26, can be related with my birthday code 511 through:

$$11^3 + 26^3 = 511 \times 37 = 511 \times (11 + 26)$$

The above equation can be related to the algebraic expression:

$$x^3 + y^3 = (x^2 - xy + y^2)(x + y)$$

For the case that $x = 11$ and $y = 26$:

$$x^2 - xy + y^2 = 11^2 - 11 \times 26 + 26^2 = 511$$

The identity of the man child may be related to numerology, mathematics, languages, sciences and technology, and culture, and multiple events in mankind history.

Two of these events may have been the June fourth incident and the 911 incident. But other events, may include the Organ Harvesting, and the 1986 Chernobyl incident, and the 311 East Japan Earthquake in 2011.

第 7 章

Anti Organ Harvest

我反對活摘器官。

I am anti organ harvest. I have conferred to myself in May of 2025, the Freedom Medal, Anti Organ Harvest. This medal is related to 1552:

Freedom Medal, Anti Organ Harvest.

#

$$= 180 + 60 + 1312 = 1552$$

I had been living in Kwun Tong, Hong Kong. I came in the year 2002 to the Kwun Tong Maryknoll College. I entered the class 1C, and I was given the class number 12.

C is ranked 3 in the English letters. 1C12 can be related with 1312, and can be related with anti organ harvest:

Anti organ harvest.

$$= 150 + 178 + 984 = 1312$$

There have been these balances:

$$1312 + 1205 = 2517 = 1552 + 965$$

$$1312 + 1205 + 511 = 3028 = 1552 + 965 + 511$$

In the above set of equations: 965 is related to my name, Hung Ho Yeung, 511 is related to my birthday.

As of May 30, 2025, Friday, I have owned two Casio G-Shock G-056B. At least one of these is G-056B-8V. According to the inter-

net, Casio G-Shock model G-056B-8V (module number 3028) has been released in the year 2006.

The report REPORT INTO ALLEGATIONS OF ORGAN HARVESTING OF FALUNGONG PRACTITIONERS IN CHINA, by David Matas and David Kilgour, has been dated July 06 of 2006.

Perhaps really related to the organ harvest issue, I have had the watch vision: I once sensed that I was lying in a dark place, with the knowledge that a door on my chest had been opened. I thus took the chance to ask the Lord to enter and dwell in me, and sensed the passing of electricity from around the position of my heart to my left arm.

The place turned from dark to light. I lifted up my right hand (the other hand). And I saw the time sign 15:52 that appeared on a watch that looked like a Casio G-Shock G-056B on my right wrist. Soon, my eyes then saw this world. I was on June 05 of 2019,

Wednesday.

About 6 months later, mankind started to face the Covid-19 pandemic. Many people died within those years.

The number 1533 is related to my birthday code 511 by $511 \times 3 = 1533$. And there has been this alphabetic numeric equation:

STAM, anti organ harvest.

$$= 221 + 1312 = 1533$$

The term 'Covid-19' has started with the English letter 'C' which has been the 3rd English letter in the alphabet. Relating to my birthday code 511:

$$511 \times 3 + 19 = 1552$$

I entered the Kwun Tong Maryknoll College (KTMC) in the year 2002, entered class 1C. I was also assigned to the C House. C is for courtesy. But the English words 'child'

and 'computing' and 'communication' and 'consciousness' also start with the letter 'c'.

In that consciousness of the watch vision, I have prayed for the Lord to enter and dwell in me, and soon I have then seen the time sign 15:52.

The Lord enters Hung Ho Yeung.

$$= 267 + 320 + 965 = 1552$$

第 8 章

Casio G-Shock G-056B-8V

The man child shepherd, studied in the
KTMC. #

$$= 488 + 717 = 1205$$

The man child shepherd, of God, stud-
ied in the KTMC. #

$$= 488 + 117 + 717 = 1322$$

這本書可能會讓我曾經就讀的中學，觀塘瑪利諾書院 (KTMC)，從地區名校 regionally famous school 變成地球名校 globally famous school。

這本書也可能會讓很多人知道關於 Casio G-Shock G-056B-8V 這個型號。

I left the Kwun Tong Maryknoll College 觀塘瑪利諾書院, graduated, in the year 2007. From the year 2007, going forwards in the future time direction 17 years, time would then reach the year 2024.

I bought a Casio G-Shock G-056B-8V, module number 3028, on March 10 of 2024, Sunday.

I completed the purchase using 1390 Hong Kong dollars at (or about) 14:27 pm (Hong Kong local time) on March 10 of 2024. The watch is my second G-056B model Casio G-Shock.

On the next day, the Hong Kong Observatory 香港天文台 reported that, there was a 2.0 scale earthquake in Hong Kong on 1:22pm

(that was 13:22 pm) on March 11 of 2024, Monday.

Before buying the Casio G-Shock on March 10 of 2024, Sunday, I have put an alarm time 15:52 into the Casio G-Shock.

I later found that $1322 \times 1552 = 2051744$, and I knew that with the alphabetic numeric code:

March tenth, MMXXIV.

$$= 122 + 253 + 1369 = 1744$$

Hung Ho Yeung is converted.

$$= 965 + 99 + 987 = 2051$$

The term 'converted' is used in:

Luke 22:32

But I have prayed for thee, that thy faith fail not: and when thou art converted, strengthen thy brethren.

Back in the year 2019, after the watch vision I saw related to the time sign 15:52, my mother and I left Quanzhou 泉州 and returned to Hong Kong 香港 on June 06 of 2019, Thursday, taking the China High Speed Railway 高鐵 from Quanzhou 泉州 to West Kowloon 西九龍 of Hong Kong 香港.

This day, June 06 of 2019, Thursday, has been 10983 days from my birthday on May 11 of 1989, Thursday. This day is special.

$$10983 = 8964 + 2019$$

$$\begin{aligned}\frac{10983}{7} &= 1569 = 1552 + 17 \\ &= 1552 + 12 + 5\end{aligned}$$

小時候，在福建泉州，我有就讀於傳春幼兒園。那時候，我經常早上晚到。老師們可能對我印象比較深刻，因為我是一個經常會晚來的小孩子。

我是一個男孩子。

我出生在 1989 年的春夏左右。那一天，
是 1989 年 05 月 11 日，是一個星期四。

那一天離開 1986 年 04 月 26 日，是
1111 天。

This day the man child is born.

$$= 612 + 228 + 271 = 1111$$

The iron rod.

$$= 113 + 313 = 426$$

在我出生前 6 年又 29 天 (或左右)，Casio 推出了第一款 Casio G-Shock 手錶。那一天是 1983 年 04 月 12 日，星期二。

The iron rod belongs to Hung Ho Yeung the man child.

$$= 426 + 364 + 965 + 228 = 1983$$

I can relate 412, and 629, and my birth-

day code 511, to 1552:

$$412 + 629 + 511 = 1552$$

The term 'Casio Project Team Tough' can also be related to 1552:

Casio Project Team Tough.

$$= 153 + 898 + 136 + 365 = 1552$$

36 is the square of 6, and is also the sum of 17 and 19.

$$36 = 6^2 = 17 + 19$$

$$1983 + 6^2 = 2019 = 2025 - 6$$

About 36 years after the release of the first Casio G-Shock model, in the spring 春 and summer 夏 of the year 2019, Hong Kong encountered a series of social movements and events, which included the 721 incident (721 事件, 元朗) and the 831 incident (831 事件, 太子).

I found that $721 + 831 = 1552$ and that:

$$\begin{aligned}721^3 + 831^3 &= 948661552 \\ &= 611251 \times 1552 \\ &= (507 \times 1205 + 316) \times 1552\end{aligned}$$

I provide here some information:

Firstly, on February 06 of 2020, Thursday, I bought in Wanchai 灣仔 of Hong Kong a Sony Walkman NW-ZX507. And about 3 years later, on February 06 of 2023, Monday, Turkey had major earthquakes.

The Sony Walkman NW-ZX507 is a Walkman model released in the year 2019.

Secondly, on March 16 of 2023, Thursday, I bought in Tsim Sha Tsui 尖沙咀 of Hong Kong a violin for 650 Hong Kong dollars. There are multiple ways to express 650 as the sum of two squares.

$$650 = 17^2 + 19^2 = 11^2 + 23^2 = 5^2 + 25^2$$

March 16 of 2023, Thursday, the purchase day of my violin, was exactly 12 years and 5 days after the 2011 East Japan Earthquake on March 11 of 2011, Friday.

The secondary school I studied in, the Kwun Tong Maryknoll College, was located in 100 Tsui Ping Road of Kwun Tong. 100 is the sum of 17 and 19 and 11 and 23 and 5 and 25.

$$100 = 17 + 19 + 11 + 23 + 5 + 25$$

And also, the term Tsui Ping Road is related to 650.

$$399 + 116 + 135 = 650$$

And related to the purchase day of the Walkman, and the purchase day of the violin, there are multiple equations:

$$206 \times 316 = 65096$$

$$206e + 316\pi = 1552.709...$$

In the above, $e = 2.71828\dots$ is the Euler constant, while $\pi = 3.14159\dots$ is the 圓周比率. There are multiple equations related to the number 709:

Male, Christian, iron rod.

$$= 56 + 340 + 313 = 709$$

The iron rod man child G-Shock.

$$= 113 + 313 + 115 + 168 = 709$$

Right hand G-Shock of the man child.

#

$$= 204 + 53 + 168 + 56 + 228 = 709$$

The man child shepherd, STAM.

$$= 488 + 221 = 709$$

STAM protects.

$$= 221 + 488 = 709$$

第 9 章

朗程牽 iSPA Support Centre for Persons with Autism

在美國康乃狄克州 Stamford 受浸後大約 7 年，我來到新生會朗程牽。

$1993 + 10 + 16 = 2019 = 2012 + 7$

After seeing the time sign 15:52, my eyes

then saw this physical world. I was in Quanzhou 泉州, on June 05 of 2019, Wednesday. And on the next day, my mother and I left Quanzhou in the morning and arrived in Hong Kong at about noon or in the afternoon.

After having returned to Hong Kong in June of 2019, I later obtained in August of 2019 a referral letter (dated August 12 of 2019), from a registered psychologist in Hong Kong, for me to join the iSPA Support Centre for Persons with Autism 朗程牽自閉症人士支援中心 of the (NLPRA) New Life Psychiatric Rehabilitation Association 新生精神康復會.

I joined the iSPA centre in about August of 2019. The iSPA centre was temporarily locating in 180 Electric Road 電氣道 180 號 of Fortress Hill 炮台山, and was eventually moved in the year 2023 to the new location in Sheung Wan 上環 of Hong Kong.

I came to this new iSPA location on July 15 of 2023, Saturday. This day has been 1552 weeks after October 16 of 1993, Saturday.

The SLAM DUNK 灌籃高手, 男兒當入樽 animation was, according to the internet, released in Japan on October 16 of 1993, Saturday.

From October 16 of 1993, Saturday, going forwards in the future time direction 10864 days, which is 1552 weeks, time would then reach July 15 of 2023, Saturday.

Exactly on this day, I brought my violin to the iSPA center in Sheung Wan 上環 of Hong Kong, and played the violin there in an iSPA event.

After the iSPA event, I left and then visited a G-Factory nearby. Later, in the next year, I bought on March 10 of 2024, Sunday, a Casio G-Shock G-056B (module number: 3028) from this G-Factory.

$$10 \times 7 + 16 \times 15 = 310$$

$$1016 + 715 + 965 + 332 = 3028$$

Music.

$$= 30 + 200 + 90 + 9 + 3 = 332$$

I found the balances:

$$4002 = 1983 + 2019 = 2013 + 1989$$

$$4002 = 3028 + 310 + 153 + 511$$

And I found the relations:

$$\begin{aligned} & (1983 + 1989 + 1996) \\ & + (2012 + 2013 + 2019) \\ & + (2024 + 3028 + 1552) \\ & = 5968 + 6044 + 6604 \\ & = 18616 = 4 \times 26 \times 179 \end{aligned}$$

The model that I bough on March 10 of 2024, Sunday, has been written as G-056B-8V. I have found that:

$$\frac{4 \times 26 \times 179 + 8}{12} = 1552$$

The referral letter that I obtained, for me to join the iSPA centre, was dated August 12 of 2019.

Related to 8 and 12, I have found that:

$$\frac{8^4 + 12^4}{4 \times 4} = 1552$$

The English word 'child' can be related to 44:

Child.

$$= 3 + 8 + 9 + 20 + 4 = 44$$

The first G-Shock model was released on April 12 of 1983, about 6 years and 29 days before I was born as an oriental male in Quanzhou 泉州 of China.

I owned two G-056B (module number: 3028) Casio G-Shocks. One was bought by my mother to me, in the year 2006 or 2007. Another one was bought by myself in the year 2024.

From the founding (perhaps around 1046 BC) of the Zhou dynasty 周朝 in the ancient China, to the release of the first Casio G-Shock model in 1983 AD, there may have been around 3028 years.

$$1046 + 1983 - 1 = 3028$$

and for a perfect sphere with the surface area of exactly 3028 squared units, the radius is about 15.52 units:

$$\sqrt{\frac{3028}{4\pi}} = 15.52..$$

1552 can be related to the Roman numeral of the number 1983 which is MCM-LXXXIII, and to the term 'Casio G-Shock', and the term 'STAM', through the following equation:

$$\begin{aligned} & \# \text{ MCMLXXXIII, Casio G-Shock, STAM.} \\ & \# \\ & = 1010 + 321 + 221 = 1552 \end{aligned}$$

After the watch vision, I bought a Casio G-Shock G-056B-8V (module number: 3028) on March 10 of 2024, Sunday, from the G-Factory store in 樂古道 38 號 of Sheung Wan, Hong Kong.

And then, the Hong Kong Observatory, on the next day, on March 11 of 2024, Monday, repoerted a 2.0 scale earthquake in Hong Kong.

$$13^2 = 12^2 + 5^2$$

Between my birth on May 11 of 1989, Thursday, and the Casio G-Shock first release on April 12 of 1983, Tuesday, in the middle of these two time points, is around April 26 of 1986, Saturday, related to the Chernobyl incident.

26 weeks after I was born, was then closed to the day the Berlin wall fell. And then in that December of 1989 in Berlin had been the Berlin Freedom Concert related to the Beethoven

Symphony No. 9 in D minor, Op. 125.

Around 12 years and 5 days after the 311 East Japan Earthquake, I bough on March 16 of 2023, Thursday, in Hong Kong a violin.

第 10 章

The Chernobyl incident of 1986 and the 311 East Japan Earthquake of 2011

$$426 + 311 + 505 + 310 = 1552$$

$$426 + 311 + (316 + 125 + 64) + 310 = 1552$$

時間，數字，曆法，音樂，太陽系。人類文

明。

$$125 = 5^3$$

$$64 = 4^3$$

原來，從 1989 年 06 月 04 日，星期天，往未來的時間方向走 36 年，時間就會到達 2025 年 06 月 04 日，星期三。

$$25 + 64 + 36 = 125$$

25 and 64 and 36 are square numbers.

$$25 = 5^2$$

$$64 = 8^2$$

$$36 = 6^2$$

原來，這三個數字，5，8，6，加起來是 19。

$$5 + 8 + 6 = 19$$

I found that:

$$\sqrt[3]{5 \times 6 \times 8} = 6.21446501...$$

在六四事件 30 週年後 2 天，在 2025 年 06 月 06 日，星期五，早上，我發現了上面這項算式。原來，我可能成了一台戲，一台給人類文明觀看的大戲。我可能已經成了一個強大的演員了。

$$3028 = 621 + 1446 + 650 + 311$$

On March 11 of 2011, Friday, I was an undergraduate student in the Chinese University of Hong Kong, in my final year. I majored in mathematics. At 14:46:24 Japan Standard time 日本標準時 (which was 05:46:24 UTC, and was 13:46:24 Hong Kong local time), an earthquake occurred.

About 12 years and 5 days and 4 minutes after this earthquake, I bought a violin with 650 Hong Kong dollars from a music

instruments store in Tsim Sha Tsui of Hong Kong. The violin was bought with an Yamaha electronic keyboards which costed 799 Hong Kong dollars, and also with a shouldrest which costed 120 Hong Kong dollars. As a result, the total sum for the bill was 1569 Hong Kong dollars.

$$650 + 799 + 120 = 1569 = 1552 + 12 + 5$$

During my secondary school years and my undergraduate years, I used to wear watch on my left wrist. Yet, in the watch vision related to the year 2019 and related to the time sign 15:52, I sensed electricity passed to my left arm, and saw a watch that looked like a Casio G-Shock on my right wrist.

After seeing the time sign 15:52, soon, I saw this physical world. I was on June 05 of 2019, Wednesday. And about 1380 days later, I bough the violin on March 16 of 2023, Thursday. And then, about another 360 days

later, on March 10 of 2024, Sunday, I bought the Casio G-Shock (module number: 3028).

$$1380 = 310 + 316 + 311 + 426 + (12 + 5)$$

$$3028 = 1380 + 1552 + (8 \times 9 + 6 \times 4)$$

From April 26 of 1986, Saturday, going forwards in the future time direction for 9085 days, time would reach March 11 of 2011, Friday. The number 9085 can be written as:

$$9085 = 3028 + 2019 + 605 + 1552 + 1205 + 26^2$$

$$(1205 + 1552) \times 17 \times 19 = 890511$$

My birthday, May 11 of 1989, Thursday, is 1111 days away from April 26 of 1986, Saturday, a day in history related to the Chernobyl incident.

There is this equation:

This day the man child is born.

$$= 612 + 228 + 99 + 172 = 1111$$

$$311 + 426 + 815 = 1552$$

There are these equations:

$$426 + 511 + 604 + 11 = 1552$$

$$1989 + 604 + 3028 + 828 = 6449$$

$$64 \times (89 + 64) = 8964 + 828$$

According to a RFI 華語 - 法國國際廣播電台 Radio France Internationale video (titled: 六四 36 周年的香港：警察，白花，蠟燭，VIIV..... • RFI - 法广) on YouTube, a police car with the car plate AM 6449 was located in Causeway Bay 銅鑼灣 outside SOGO 崇光 on June 04 of 2025, Wednesday.

The video, which lasted for about 3 minutes and 6 seconds on YouTube, was dated June 05 of 2025, Thursday.

At the 1:03 scene of the vidoe, there was the picture of a police car with the car plate AM 6449. In fact, $64 = 8^2$ and $49 = 7^2$ and $8 \times 7 = 56$.

Fe.

$$6 + 5 = 11$$

Violin.

$$700 + 9 + 50 + 20 + 9 + 40 + 828$$

The man child STAM.

$$= 228 + 221 = 449$$

第 11 章

Hogwarts, Matrix, and Anti Organ Harvest

$$\sqrt{8964 \times (965 + 30 + 28)} = 3028.229...$$

$$\left(\frac{1552 + 511 + 407}{26} \times 8964\right) + (1552 + 1335 + 650) = 855117$$

$$\begin{aligned} & 505 + (19 + 76 + 7 + 28) + 1552 \\ &= 2187 = 3^7 \\ &= 342 + 1845 \end{aligned}$$

One July 28 of 1976, China had the 唐山大地震。

The man child shepherd.

$$= 228 + 260 = 488$$

My name is related to 965. And there has been this equation relating 1552 and 1205 and 0.965...

$$\frac{\log 1205}{\log 1552} = 0.965...$$

1976 年 07 月 28 日，中國發生唐山大地震。地震後 4670 天，我出生在福建泉州。

From July 28 of 1976, going forwards in the future time direction for 4670 days, time would reach my birthday on May 11 of 1989. The number 4670 can be related to 1989, 511, 965 and 1205.

$$4670 = 1989 + 511 + 965 + 1205$$

$$488 \times 3 = 1464$$

$$728 + 511 + 313 = 1552$$

I have seen the Harry Potter series movies. And I have also seen the Matrix series movies, including the fourth movie of the Matrix series, which has been The Matrix Resurrections.

I conferred to myself multiple medals, which

include the Hogwarts Honorable Medal, and the Roman Crucifixion Matrix Code Medal, and the Freedom Medal, Anti Organ Harvest. All these medals are related to the number 1552:

Hogwarts Honorable Medal.

$$= 1236 + 256 + 60 = 1552$$

Roman Crucifixion Matrix Code Medal.

$$= 910 + 582 + 60 = 1552$$

Freedom Medal, Anti Organ Harvest.

$$= 180 + 60 + 1312 = 1552$$

The man child identity may be related to multiple historical events, cultural issues, movies, music, literatures, languages, sciences and technology in mankind civilization. As a matter of coincidence and or predestination, for my version of Harry Potter and the Philoso-

pher's Stone movie that I obtained from the iTunes store (Hong Kong), the 15:52 screen shows the Hogwarts admission letter.

“Dear Mr. Potter,

We are pleased to inform you that you have been accepted at Hogwarts School of Witchcraft and Wizardry.”

Related to the Chinese characters, related to the Chinese input code 倉頡碼 invented by mankind, the following two equations would hold:

cjig(鐵), cjit(鐵), STAM.

$$= 619 + 712 + 221 = 1552$$

Fe(鐵的化學元素符號). # + # chqo(鉄), ckn(鉄), cjig(鐵), cjit(鐵). # + 26(鐵的原子序數) = 1552

I used HKD 1390 to buy the new G-SHOCK.
I later realized that:

STAM advertisement. # = 1390

Concerning the Chinese input code 倉頡

碼, I hereby thank Taiwan, Brazil and 朱邦復. Thank you.
